Data That Makes a Difference

Improve patient outcomes. Advance medical practice.

Experience the power of all the data in one platform—PaceMateLIVE™.

With the industry's only complete research-grade data set, PaceMate aggregates cardiac data for your customized needs. Apply any combination of filters to identify select patients.

1 Query EHR Data within PaceMateLIVE

- ✓ Demographics
- ✓ Hospitalizations
- ✓ Medications
- ✓ Diagnoses
- ✓ Medical history

2 Combine EHR Data with Discrete Cardiac Device Data

- ✓ Device alerts
- ✓ Pacing percentages
- ✓ Programming
- ✓ Arrhythmia burden
- ✓ Longevity and thresholds

3 Select and Apply Customized Filters

4 View All Data Simultaneously in One Dashboard

Patient Name	Device Type	Mode	MVP	RV% Paced	EF	Provider
John Doe	IPG	DDD	Yes	55	28	Dr. Pham
Jane Doe	IPG	DDD	No	40	33	Dr. Morales

PaceMateLIVE Is Query-Ready

All the answers to your data questions—in one dashboard.

PATIENT OUTCOMES

> Track and manage your patient population

> Identify procedure candidates

> Monitor adherence to medication therapy guidelines

DEVICE RECALLS

> Automatically identify impacted patients

> Easily access recall advisory documentation and additional information

SAFETY

> Monitor lead integrity

> Monitor transmission compliance, including last remote or in-clinic transmission

RESEARCH

> Power research with customizable queries of research-grade data

> Identify clinical trial and registry candidates

We never miss a beat.®
