

Data & Analytics That Make a Difference

Generating the most robust and trustworthy data.
Helping you make smart, data-driven decisions.

You can only impact what you measure.

Whether it's driving academic research, improving operational efficiencies, or understanding your financial position, PaceMateLIVE™ offers the best available cardiac remote monitoring platform with unprecedented, research-grade data capabilities.

- ✓ One dashboard for all cardiac remote monitoring
- ✓ All cardiac device data and real-time EHR data
- ✓ Custom-built queries + analytics on demand
- ✓ Fast turnaround of population health data

Increase
procedure volume

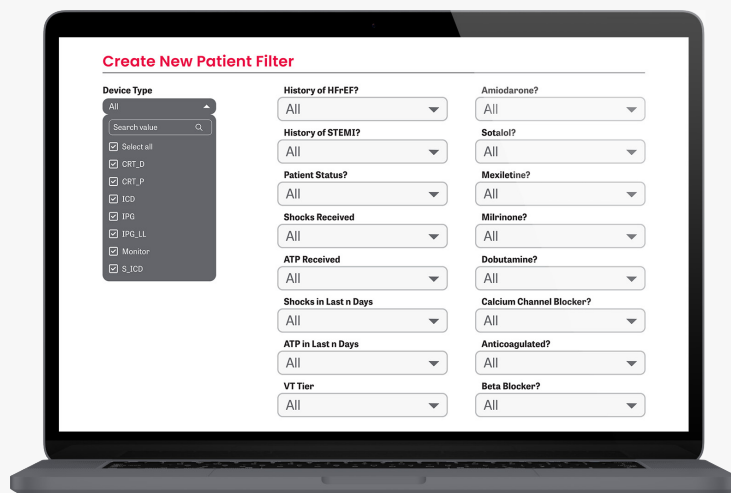

Improve clinic
efficiency

Drive the
bottom line

Clinical

- ✓ **Research-grade Data Engine**
Longitudinal review of cardiac device data + EHR data
- ✓ **Population Health Navigator and Guideline Adherence Dashboard**
Improve patient outcomes
- ✓ **Device Management Report**
Discover patients eligible for device upgrades
- ✓ **Clinical Trial Registry and Recruitment**
Identify candidates
- ✓ **Recall Management Search Engine**
Identify and monitor patients with device recalls or advisories

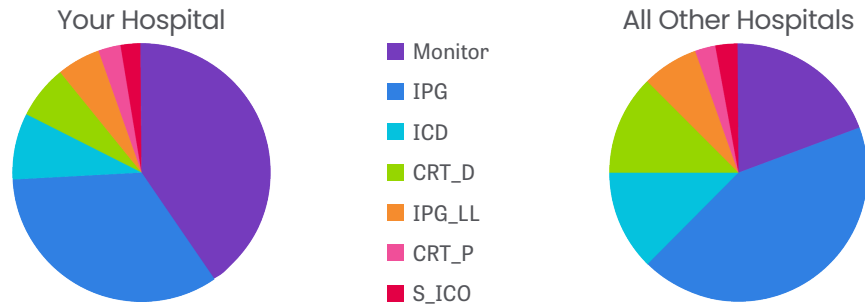

Operational

Daily Efficiency Snapshot

- ✓ Patient volume
- ✓ Signed reports
- ✓ Implanting patterns
- ✓ Device longevity
- ✓ Daily, monthly, quarterly, annual change

Employee Name	Reviewed	Approved	Total
Anna Cohen	10	1200	1310
Brett Henson	5	1100	1285
Conrad Sherman	150	1000	1330
Helen Carlson	5	350	385
Juan Ruiz	210	1300	1710
Stacy Bonilla	15	650	715

Compare Your Implanting Patterns

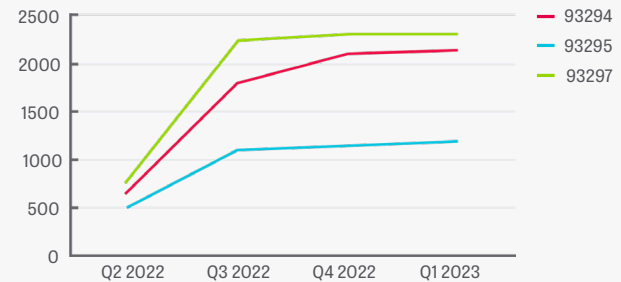

Financial

Billing and CPT Code Reports

- ✓ Assess financial health
- ✓ Track reimbursement
- ✓ Access comparative data
- ✓ Daily, monthly, quarterly, annual

Track Implantable CPT Codes by Quarter

Custom Queries and Reporting

- ✓ Unique datasets customized for cardiac research
- ✓ Servicing academic medical centers, clinical research programs, and EP fellowships

Compare Device Longevity

Hospital A

Vendor	Type	Model	Longevity (years)
