

The PaceMate Solution

One comprehensive software platform. Three service-and-support packages.

PaceMate **LIVE™**

PaceMateLIVE's three software-and-service packages provide cardiology practices of all sizes with efficient, simplified remote monitoring and data management options.

SOFTWARE

For clinics that want to do it themselves with an easy-to-use platform

- ✓ Full access for unlimited users to our easy to use software
- ✓ Dedicated customer success team
- ✓ Robust data and reporting

ON-DEMAND

For clinics that need software + periodic support

- Includes software only plan
- ✓ Flexible patient communications team
- ✓ Flexible support schedule for nights, weekends, and holidays

FULL SERVICE

For understaffed clinics that need software + around-the-clock support

- Includes software only plan
- ✓ Dedicated patient communications team
- ✓ 24.7.365 support
