

PaceMateLIVE™—Your cardiac remote monitoring platform.

Inspired by you. Made possible by PaceMate.®

Together, we never miss a beat.®

Simplify the complex. Transform your workflows. Generate new revenue. Focus on the actionable first with confidence. All from one intelligent dashboard—the only fully interoperable cardiac remote monitoring platform available. PaceMateLIVE—smarter and simpler for all.

One platform. All the data.

The only fully interoperable cardiac data platform that supports the full cardiac care continuum.

- ✓ Implantable cardiac devices
- ✓ Ambulatory monitors
- ✓ Consumer ECGs
- ✓ Heart failure devices

Implantable Cardiac Devices

Ambulatory Monitors

Heart Failure Devices

Consumer ECGs

Knowledge is power. No stale data—ever.

Real-time device data. Real-time patient data. Better outcomes.

- ✓ The only cardiac remote monitoring platform with real-time, bi-directional connectivity with Epic, Cerner, and athenahealth
- ✓ Integration with all EHRs—syncing 180+ datapoints
- ✓ Current device data—auto-populated to our platform

Making Monday mornings better.

We're not just SaaS. We're the only cardiac remote monitoring partner to offer you and your patients 24.7.365 service. When you're off, we're on.

- ✓ 24.7.365 clinical support from cardiac rhythm management experts
- ✓ Immediate triage of critical patients to on-call healthcare professionals—we prioritize the urgent
- ✓ Rapid response to stat read requests
- ✓ Patient communications team proven to improve patient connectivity and compliance

We never miss a beat.®
