

Easy to use. Easy as PaceMateLIVE.™

Simpler cardiac data management starts here.

Let's uncomplicate your workflows together.

All the data—one single sign-on platform.
At your fingertips in real time, from day one.

REVIEW IT. CLICK IT. BILL IT. GET ON WITH IT.

Fewer clicks. Better patient care.

PaceMateLIVE reduces burnout and click fatigue—simplifying your work with innovative technology and letting you focus on patient care.

All discrete device data

Don't get bogged down with data input. PaceMateLIVE uploads everything on day one—even serial numbers.

One-click e-sign + next

No more back and forth between systems. With e-sign + next we save an average of 150 clicks.

Auto billing + claims

Billing is automated with PaceMateLIVE. And data moves directly into the EHR once report is signed.

We built this for you.

Schedule a demo and see how PaceMate can work for you.

"The ease of navigation, the simplicity for the doctors to get in there and see the information they needed to see—that was the decision maker for us."

—Alaina Mathers

RN, CCDS, Device Clinic Coordinator
Genesis HCS, Zanesville, Ohio

We never miss a beat.®
